### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

Profile for the construction of wall fixtures (sconce fixtures), with an option of simultaneous up and down lighting. It has integrated functions: fitting of LEDs and protecting them with a cover (diffuser), surface mounting, as well as an option of installation of power supply and other electronic components, profiles length 100, 200 cm.

**The product you have selected contains only - aluminum profile - does not include the accessories located in the Accessories tab.**

**Additional accessories like covers, end caps, electricity conductive end cap, mounting bracket, fasteners, mounting springs, proximity switch, micro switch, mounting system and others are available under "Accessories".**

**If you are interested in longer lengths than one meter, write to us we will quote the delivery cost to you. Transport companies expect additional charges for long shipments.**

**For each country is different maximum length of the profile that we can send. It does not depend on us only by courier. We also do service cutting aluminum profiles to the indicated size - write or call get comprehensive information.**

- UGR below 19 obtainable

Possibility of using and easily servicing LED tapes, LED current modules and 230V LED modules

Possibility of suspending or mounting directly to a surface

Lighting fixtures can be connected into linear and polygonal lighting lines (ZM / ZM-G Connectors)

Cables can be routed in the profile, which also serves as a mounting strip

Wall-to-wall installation possible

#### Application

- for the construction of serviceable linear lighting fixtures with a line of light.

#### Assembly

- surface or suspended mounting using systems offered by KLUS.

Additional information

\* Wall-to-wall installation possible as end caps can be attached from below. To mount the lighting fixture from below, snap off the inner upper plastic parts of the end cap. Then fit the assembled set of elements (end caps, profile with LED tapes) in the mounting strip.

UGR below 19 can be obtained with the use of JUN-40 prismatic cover.

Screw type for mounting LED current modules: M3x5 DIN7985.
