Product description

Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

The product you have selected contains only - aluminum profile - does not include the accessories located in the Accessories tab.

Additional accessories like covers, end caps, electricity conductive end cap, mounting bracket, fasteners, mounting springs, proximity switch, micro switch, mounting system and others are available under "Accessories".

If you are interested in longer lengths than one meter, write to us we will quote the delivery cost to you. Transport companies expect additional charges for long shipments.

For each country is different maximum length of the profile that we can send. It does not depend on us only by courier.

We also do service cutting aluminum profiles to the indicated size - write or call get comprehensive information.

- Broad line of light
- Smooth surface
- Easy assembly

Application

- main lighting in offices and public spaces with the use of flexible LED strips or DC modules.

Assembly

- suspended with the use of accessories compatible with a small lock.

Additional information

- the line of light can be obtained with LIGER-50 cover and a LED tape with at least 60 LEDs per meter,
- LIPOD-50 profile is intended for two, three or four 10 mm wide LED tapes,
- four tapes provide uniform illumination of the cover over its entire width,
- LED tape gluing width in the profile is 42 mm,
- the profile is equipped with threaded grooves allowing the installation of DC modules with a spacing of 18.6 mm using M3x5 screws,
- the cover is cut to the length of the profile,
- end caps are mounted with screws on the inside of the profile, thanks to which the aesthetics of the lighting fixture is

maintained,
- can be connected into strings using ZM connectors.
