### Product description

#### Important Information

The purchase a piece in the store means the purchase 1 linear meter of the profile or cover

If you want to buy a profile that has a length of 2 meters you have to buy 2 pieces, 3 meters you have to buy 3 pieces, and the multitude of quantity when ordering.

The total length of the aluminum profile or the panel to the profile - is the total quantity of the piece number that was bought in the store.

The choice of the appropriate shipping method will take place at the end of the order process.

[The details of the shipping method and packaging of the aluminum profiles you will find here \(click in the link\)](#)

#### Anodized aluminum profile

The product you have selected contains only - aluminum profile - does not include the accessories located in the Accessories tab.

Additional accessories like covers, end caps, electricity conductive end cap, mounting bracket, fasteners, mounting springs, proximity switch, micro switch, mounting system and others are available under "Accessories".

If you are interested in longer lengths than one meter, write to us we will quote the delivery cost to you. Transport companies expect additional charges for long shipments.

For each country is different maximum length of the profile that we can send. It does not depend on us only by courier.

We also do service cutting aluminum profiles to the indicated size - write or call get comprehensive information.

Profile do wbudowania /

- se puede obtener un haz de luz con el difusor LIGER y una tira de LED con una cantidad mínima 36 LED/ft / 120 LED/m.

Aluminium profile LED Micro-K is characterized by extremely small size (only 6mm height), by which adapts perfectly to different types of elements. Without problem it will allow you to hide the fixtures in the walls of the furniture, even a very small cross-sections.

Each perfectionist knows how much they have great detail. Specific collar fitted to the profile can with great precision to hide unsightly edges of the eye, the channel specially prepared for this purpose well. Profile LED can be used in the course of interior design to illuminate various objects. It can be included not only in the bars soft but also hard.

Suitable for both internal (to be placed in the canals furniture panels as well as panels of cardboard and gypsum) and external.

Depending on your needs, you can waterproof.

Mounting profile is not the most difficult. Just use for this purpose various types of assembly adhesives or double-sided adhesive tape, which can easily be found in the accessories.

The overall width of the profile is 15.2 mm, and the height of only 6 mm.

Due to the material of the profile is characterized by a remarkable resistance to mechanical damage and corrosion processes.

Incredibly easy to install, no problem You can do it yourself.

Because of its light weight is extremely mobile.

At the ends of each profile can be placed properly fitted cap made of plastic, which can be found in the accessories section.
