## Product description

We offer a quick release strap for connecting the power LED sources. Coupling is designed to easily and quickly, without unnecessary soldering tape to connect any RGB LED controller, or directly from an AC adapter. Terminal connector and flexible conduit further facilitate installation. Connector is designed to supply each of the RGB LED strip with a width of 10 mm laminate. Just put the tape on the connector and tighten. With our adapter you avoid irritating soldering, which often is an additional hurdle in the assembly of lighting based on LED strips. Just tighten the strap in the connector and connect the wires to the removed controller or power supply. Implementation of only these two steps will allow you to enjoy the glowing LED strip.
