Salsa Max Short

Price	41.27 Euro
Availability	Available
Shipping time	5 days
Number	1604
Manufacturer	SKOFF

Product description

SALSA products are one of a family of LED luminaires developed under the Polish brand SKOFF. An interdisciplinary team stacked in its innovative product line Music Line several types of luminaires. One of them is a variant MAX and thus the extended geometrical shape in relation to the base of the device family. Similarly SHORT member defines a specific feature - the LED module is completely hidden in the frame. The light is extracted from only one side, there is less scattered and is obtained in the so-called. Curtain lighting effect.

SALSA MAX is thus a rectangle with rounded corners in the color space described as dull brass. The emitted light has a warm white color. The color temperature closes in parameters: 3500-4000K. The power consumption is 1,6W. The protection class is more advanced here and ensure the preservation of the LED module, eg. Against water jets - IP56. The device requires mounting by means of screws directly to the surface or by two cans having a diameter of 6 cm. By contrast, the dimensions of the luminaire itself is 14.3 x 7.3 cm.

Common features Music Line is also a footprint. The luminaires are very flat, which affects the way light scattering, but also does not interfere with the movement of the room.

That is non-exchangeable LED module, which in no way affects the lack of satisfaction with the product. On the contrary - a two-year warranty and 50 thousand. hours of energy-efficient lighting, which it is calculated, make a return on investment within a few months.

LED lighting fixture designed to illuminate routes
benefits:

Long life - 50 000 hours

Very low energy consumption

robust construction

Material: Aluminum

Application:

The effect of light curtain

Highlighting routes

stairs

risers

Furniture site

Decorating the walls with light

available types

Technical data

Supply voltage: 10 V DC

Light source: non-exchangeable LED module

Color temperature:

3500-4000 K (WW warm white)

5000-7000 K (W cool white)

Luminous flux [lm]:

Luminous efficacy [lm / W]:

Mounting:

by means of screws directly to the surface

through the box 2 x Ø60

The degree of protection IP 20

Type of connection: Parallel

Recommended Power: ZOL6, ZOL7, ZOL15, ZOL16

trade data

Device dimensions: 143 x 73 mm

Warranty Period: 24 months
