Salsa mini

Price **15.87 Euro**

Availability **Available**

Shipping time **5 days**

Number **1595**

Manufacturer **SKOFF**

Product description

Presented on this page LED lighting fittings produced in the collection of the Music Line SKOFF by a Polish company, is in its form, function and technical parameters of the equivalent fittings SALSA. The difference is of course the size, which tells us the product name. Opening or electro-mounting box, to mount the holder should have a diameter of 5cm. The dimensions of the device itself is 6x6cm.

The elegant style of housing is taken from the world of geometry. We have mitigated rounded square angles. Fittings encapsulating LED module has the color matte brass. The module itself is partially visible, so that the light beam has a longer range and is more diffuse compared to luminaires Short. The light is emitted in warm white. Power consumption is only 0,4W. for both possible degrees of protection. IP20 means that the LED module is protected against damage to the fingers and against small foreign objects. While more advanced protection is possible with the model with IP56. Then, the module does not have access to even wire or dust. It also will not damage the stream of water. It is worth mentioning that the manufacturer gives 24 months warranty, service life of the LED module is estimated at 50 thousand.

It seems that this is an ideal setting on the next steps in the stairwell or just above the floor in a modern long corridor. However, the lobby and offices, which immediately come to mind associations are not the only places where SKOFF already debuted. The ingenuity of our customers is enormous and creativity promotes universal design and distinctive colors.

LED Lighting fitting, designed to highlight passages

Advantages:

- Long life - 50 000 h
- Very low energy consumption
- Robust design
- Material: Aluminum

Application:

- illumination of passageways
- stairs
- stair risers
- glass cabinets
- decorating the walls with light

Available types

Variant	Material	Color	Power
ML-SMS-M-H-1-PL-00-01	Matte brass	Warm white	0,4

Technical data

Supply voltage: 10 V DC

Light source: LED

Installation:

- in the installation box Ø50
- in the opening Ø50

Ingress Protection Rating: IP 20

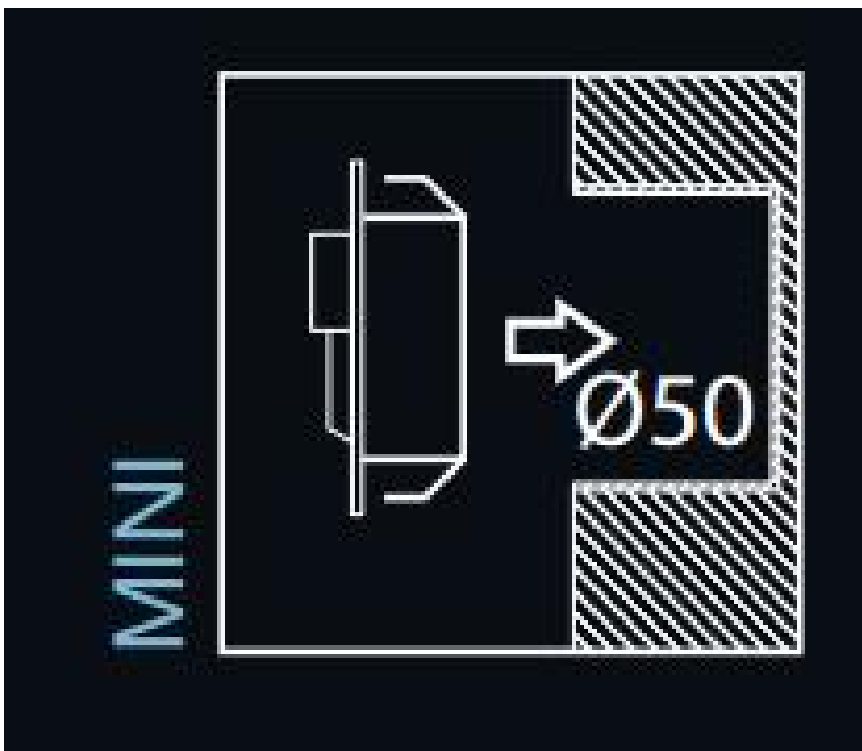

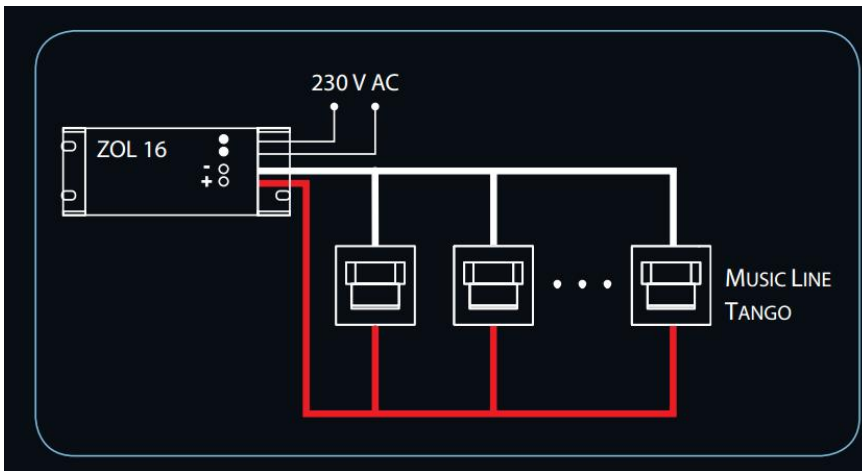

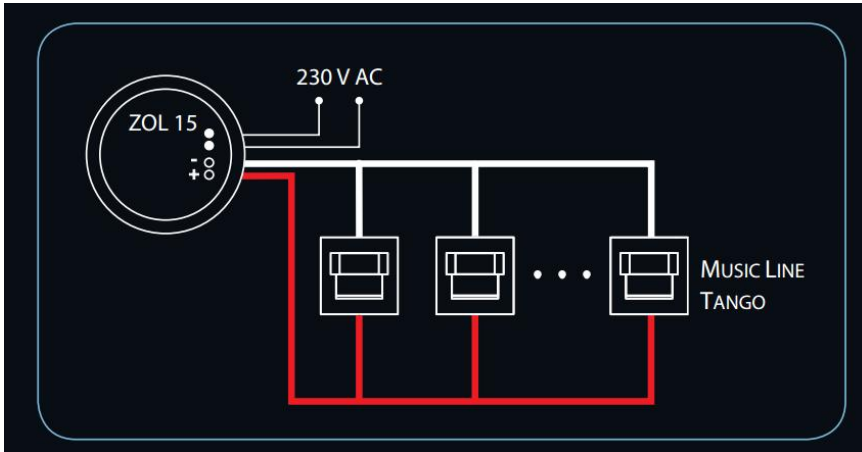

Type of connection: parallel

Recommended power supplies: ZOL6, ZOL7, ZOL15, ZOL16

Commercial data

Device weight: ...
Device dimensions: 60 x 60 mm
Warranty period: 24 mo.

This product has additional options:

Waterproof: IP20 , IP56 (+ 1.91 Euro)
