### Product description

SKOFF is a Polish company internationally successful in the lighting industry, including architectural interiors. We chose LED luminaires this company to our offer, given their simplicity and practicality at the same time and a wide choice of options. Same manufacturer emphasizes the innovative luminaires and that it is flat and thus responds to modern trends of interior design.

The collection of brand-named Music Line are fittings SALSA. These are fixtures in matt brass. They have a square or rectangular shape with rounded angles. The width and length of this model is 6cm. SALSA fixtures emit light of a warm white. They are manufactured in two variants of protection, or the simplest IP 20, or advanced, including protection against dust, wires and stream of water - IP56.

For all luminaires with stick in its name is a simplified method of installation. Shall only apply glue or double-sided tape. How to permanently mount extends the range of places where the fixture will come true. Similarly, as the whole family, for lobbies or at the stairs. However, due to the fact that they do not have to install the unit in depth, perfectly functioning furniture in sites or small bays. This allows to combine the light source in a lighting system in the simplest possible way, in fact limited to the installation site.

For housing is 24-month warranty. It has installed energy-saving LED module with durability 50 thousand. burning hours. It is the ideal base for years, and as a return on investment very quickly, both from the perspective of finance, as well as satisfaction with reliability.
