Smart LED controller for lighting stairs V11-15

Price	110.99 Euro
Availability	Available
Shipping time	24 hours
Number	419
Manufacturer	RESTAN

Product description

Specifications:

- Number of outputs lighting: 5-20
- Output voltage 12v,

Function and advantages of the controller:

- Traffic control on the stairs (you go - from "up" to "down")
- Traffic control on the stairs (you go - from "down" to "up")
- Traffic control with mutual traffic on the stairs (one person from "up" the second person from "down")
- Mode "step by step" or "smooth lighting"
- Regulation lighting time of the light (from 0.25 seconds to 5 seconds)
- Regulation blanking time points of light (from 10 seconds to 3 minutes)
- Different modes of operation in standby mode
- the mode "everything is off"
- the mode - the extreme points of light shine
- the mode - all the points of light shine
- Regulation the brightness of light points in standby mode
- Permanent light (with using PS)
- Supports traffic from the landing (with using PS - a permanent light)
- Supports RGB led strips

- * Kit is suitable for self-assembly (very easy to install.)
- * Driver made us in POLAND with high quality components, which gives almost guarantees a lifelong activity.
- * For each controller add guarantees, instructions and a description of the assembly.

Possible modifications to the individual - by a separate valuation

More than a dozen stairs is an important space for development. Gone are the days when enjoyed with them at the sconces on the walls. Currently, it is assumed complex lighting systems, what helps our offer.

We offer intelligent lighting controller that supports the stairs. It manages a number of elements to be used for security, functionality, energy saving and, of course, decoration. Part of the kit may be available in our motion sensors, we LED strip our production and power amplifier. The latter allows to combine different types of lighting, for example. LED strips and housings, more LED strips, extend the lighting on railings, or a larger area.

Traditional lighting accustomed us to a running or turned off the light. Alternatively we had a dimmer and adjustable brightness of the light manually. Then came the pilots. Today, many things arranged simple to install and use the controller. With the new capabilities illumination works even at rest - steady extreme points, all or adjust the brightness of the light. It is supported movement of the landing. This functions in LED technology guarantees low energy consumption.

Our Polish stair controller are of the highest quality and allow you to respond to customer needs, are simple to operate and improve the daily quality of life.

This product has additional options:

Motion sensor - 2 pcs: T1 (+ 51.23 Euro), T2 (+ 66.75 Euro), T4B (+ 102.97 Euro), T4B (+ 92.62 Euro), I do not order
