- * Kit is suitable for self-assembly (very easy to install.)
- * Driver made us in POLAND with high quality components, which gives almost guarantees a lifelong activity.
- * For each controller add guarantees, instructions and a description of the assembly.

Possible modifications to the individual - by a separate valuation

Very popular controller of our production. Supports LED strip lights, LED lights, halogen lights 12V, and the housing treads, various manufacturers. Along with motion sensors and power amplifiers gives limited only to the fantasy field illumination performances. Besides decoration, they serve the safety and comfort of use of the special area that are stairs.

17 degrees, it is a much quantity, usually with mezzanine or in the form of spiral stairs. For the intelligent controller does not matter the type of stairs - it works everywhere. It will be important traffic handling function here with the landing with the option of permanent lighting. Customers appreciate the possibility of abrupt or smooth light start. The advantage is also traffic control in both directions mountain down. Thanks to good cooperation with motion sensors - not impeded while controlling the illumination of the user occurs at both the top and bottom of the stairway. The owner of such a system with our driver in the lead role, it can also set yourself time lighting (always less for the sake of quick response of light) and the light fading time.

Polish technical thought, high quality materials make your - life imprisonment with intelligent lighting is at hand ...

This product has additional options:

Motion sensor - 2 pcs: T1 (+ 51.23 Euro), T2 (+ 66.75 Euro), T4B (+ 102.97 Euro), T4B (+ 97.79 Euro), I do not order
