Product description

Stair controller for single-color LED strips.

Controller for lighting stairs operating in the on/off mode
The controller works with the TUYA application, through the application it is possible to manage the lighting speed and brightness of the LED strip on the stairs.
A dedicated connection cord is recommended for assembly.

The system is dedicated to digital LED strips powered by 12-24V.

We invite you to watch an example video in the videos tab

Technical Specifications

- name of the product - staircase driver for LED
- model number - MONO-RL-S01
- input voltage - DC12-24V
- maximum power of LED strips - DC12V/96W Max, DC24V/192WMax
- maximum current - 8A

Set contains

- 1 x MONO-RL-S01 stair lighting controller
- 2 x PIR motion sensor
- 1x motion sensor extension cable - 5 m
- 1 x User Manual
