

## Staircase motion detector, motion detector and twilight detector - 10A / 12V

Price	<b>51.48 Euro</b>
Availability	<b>Available</b>
Shipping time	<b>24 hours</b>
Number	<b>2776</b>
Manufacturer	<b>RESTAN</b>

### Product description

Motion and proximity sensor - 50 cm 12V / 10A

#### Application

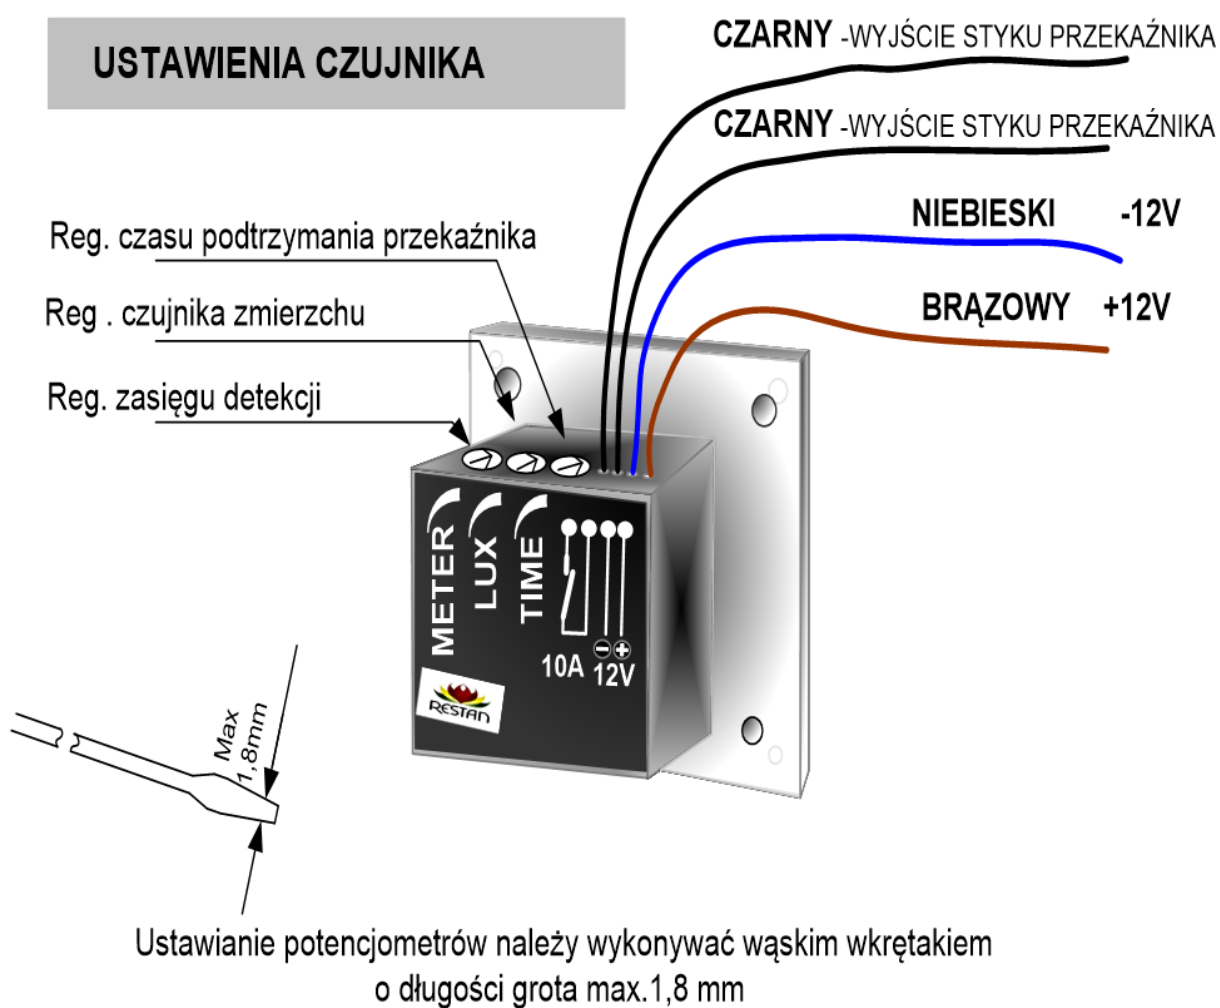

the sensor is designed to be installed inside buildings  
it is used for automatic switching on of lighting in cooperation with intelligent RESTAN controllers (MONO-1, RGB-01, RGBW-R)  
precisely detects all objects located in front of the sensor up to 50 cm  
precisely detects all moving objects in front of the sensor up to 50cm  
internal timer, twilight sensor and 10A relay allows the sensor to be used independently as a detection and control device for on / off systems

#### Functions and parameters

adjustable detection range 30-50cm  
back-up time adjustment 1s-120s  
regulation of operation depending on the intensity of external light  
detection angle 1 degree  
12V power supply  
maximum load of the sensor contacts 10A

**Note - The sensor is activated under the influence of infrared transmitters, e.g. TV remote controls**

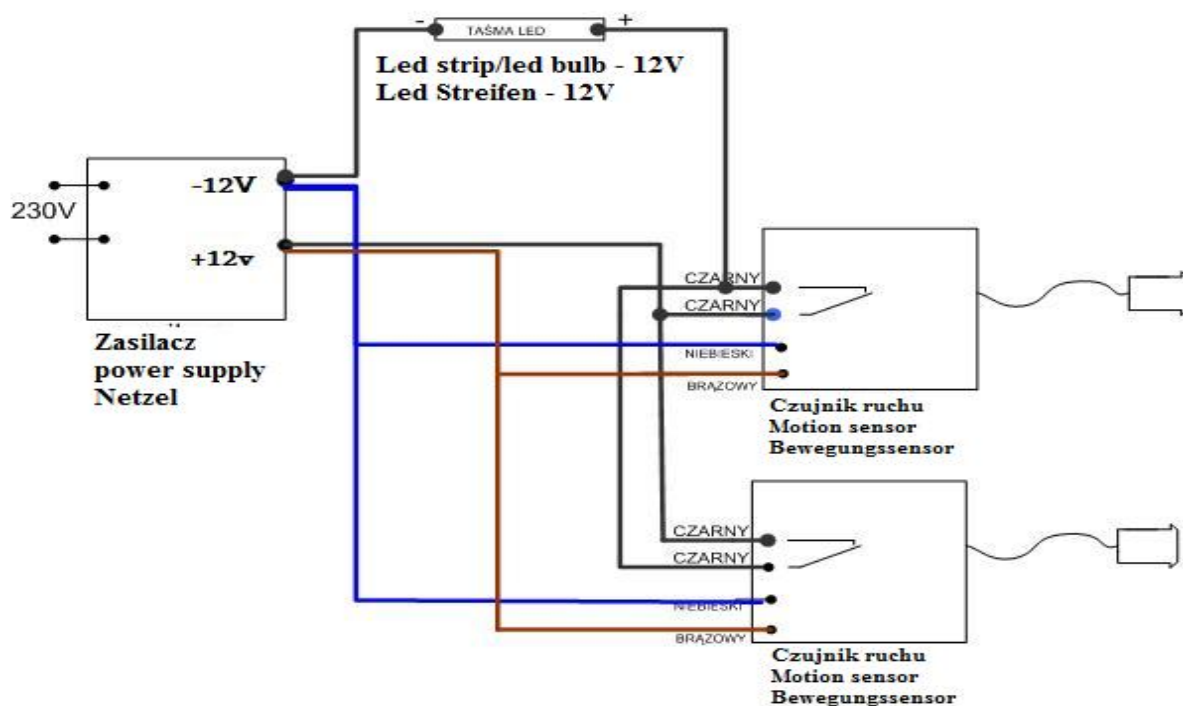

## USTAWIENIA CZUJNIKA

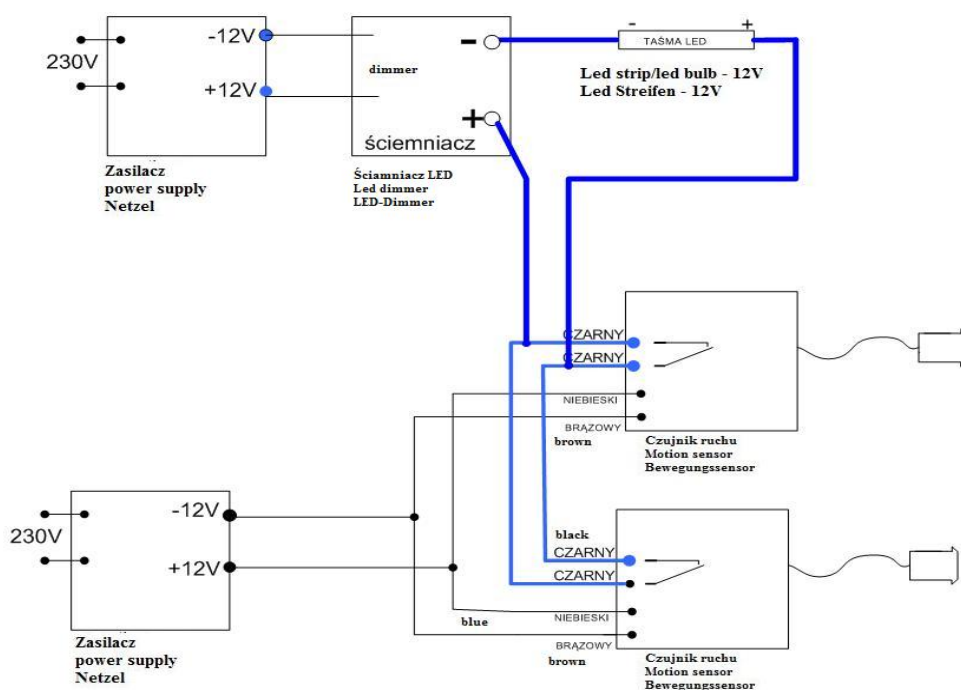

NOTE: Mechanical damage to the potentiometer is not subject to warranty repair

Application methods

On / off system using led strip / led bulbs - 12V

On / off system using led strip / led bulbs - 12V and with an attached dimmer for adjusting the light intensity

On / off system using LED strip / LED bulbs 12V with an additional button attached enabling all the lighting points to be

ignited simultaneously without any sensors - after disconnection the system returns to the automatic mode
