### Product description

Pilot MILIGHT - 4-Zone CCT Adjust Smart Panel Remote Controller - T2 is a modern device, which in its operation uses the most advanced technologies. This solution is very handy and easy in everyday use. Thanks to the ingenious pilot, easily will be able to manage the lighting throughout the house.

The control panel is equipped with a memory function. For this reason, the previous settings will be resumed when you restart the remote control. The remote control has a maximum range of thirty meters. The study uses a WiFi network. It is easy to mount it to the wall. As a result, certainly will not get lost, and in addition will look aesthetically. Using the remote control and its programming to support a particular zone is simple and everyone can handle this. The remote control allows the division of space for up to four zones, which as needed can be expanded.

You want LED light shone only on the kitchen counter, where you are working, or maybe you feel like the only decorative lighting image? Regardless of the circumstances, it was this panel is for you the ideal solution. You can finally choose what light is to shine and use a dimmer to create the optimum conditions for your needs. It's simple, and you of times you'll love the modern economy. Sometimes, in the end you do not need intense light. With LEDs, energy consumption in your home or business is a significant decrease, and you will remain a joy with a well-taken investments. Through MILIGHT - 4-Zone CCT Adjust Smart Panel Remote Controller - T2, the operation of the system Milight will be even easier.

Product Name: 4-Zone CCT Adjust Smart Panel  
Remote Controller  
Model No.: T2  
Working Temperature: -20 -60°C  
Voltage: AC90~110V or AC180~240V  
Transmission Frequency: 2400-2483.5MHz  
Modulation Method: GFSK  
Transmitting Power: 6dBm  
Control Distance: 30m  
Panel Size: 86\*86mm

## 4-Zone CCT Adjust Smart Panel Remote Controller

2.4GHz wireless transmitting  
4-zone individually control

## 4-Zone CCT Adjust Smart Panel Remote Controller

2.4GHz wireless transmitting  
4-zone individually control

## 2.4GHz wireless transmitting 4-zone individually control

Easy installation, safe and reliable

## Simple but multi-functional

## 4-zone individually control

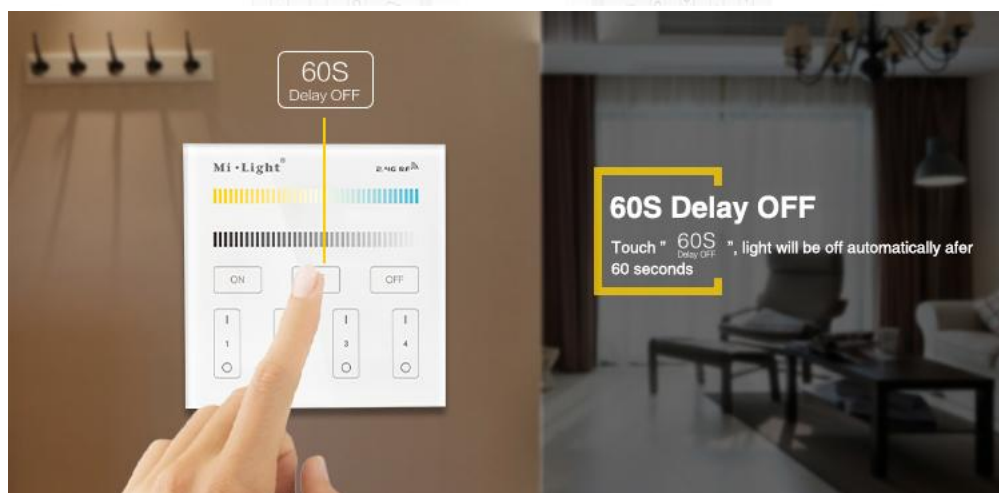

Each zone control countless lamps or controllers

### Compatible Dual White series

Control all Mi-Light Dual White LED bulbs,  
Dual White LED controllers

## Color temperature adjust randomly

Warm white 2700K~Cool white 6500K

## 1~100% Brightness dimming

Dimming(1%~100%) the light randomly

### Sensitive touching

High precision Capacitive touch screen IC,  
Touch Screen is very stable

### High-end tempered glass panel

Scratching and crushing resistance

### Touching button with sound

When touching the button, LED indicating lamp will flash  
once with different sound
